Incubator Programs

Fellowship program

Do you already have **advanced** CS skills and are Looking for your next **challenge**?

Apply to our coveted fellowship program today!

P.S IT'S COMPLETELY FREE :)

ABOUT

A **12-week** long internship program where you will work on a **real startup** incubated at our incubator, doing challenging work under the mentorship of one of the startup founders

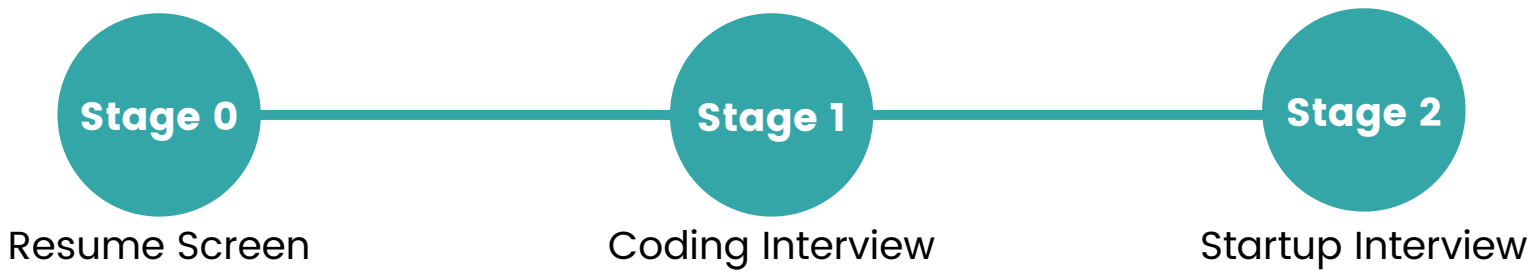

WHAT WILL I GAIN?

- Increase your skills and get **guidance** on challenging work from a **fast-paced startup environment**
- Gain new connections from **networking opportunities** with many other like-minded, motivated hackers and techies.
- Ability to put an impactful, high-quality product into the **real world** and make your college application stand out from others.

****Due to overwhelming global response, we've exhausted our hiring needs for the March cohort. Apply to get automatically added to the waitlist and get priority access to our Summer 2021 cohort.**

Immersion Program

Are you a **beginner** in CS & wondered what you would do if you were a part of the top tech companies when they started?

Apply today and experience **crashes**, **pressing deadlines**, **team-work**, **learning new tools** on the fly -- startup life **alore**! The next cohort starts April 6!

MORE INFORMATION ABOUT THE PRICES CAN BE FOUND ON THE FORM

ABOUT

A **6-week** primer into the world of tech startups. Students will be placed in one of many startup scenarios involving working on the clone of a famous, real-life tech startup from the ground-up under the mentorship of their Product Manager.

WHAT WILL I DO?

- Ramp up on tools such as **Git**, **Trello**, **Javascript**, **ReactJS**, **Sass**, **Docker**, **Kubernetes** and more.
- Fix a critical failing feature with **real stakes** and **deadlines**.
- Propose a new enhancement and perform **R&D** to determine the elusive product-market fit and implement it.
